PRELIMINARY AMENDMENT

Sir:

In further response to the Official Action of August 30, 2002, please amend the application as follows:

IN THE CLAIMS:

Please amend claim 25 as follows:

25. (Amended) A method of constructing a building unit module having opposing long sides, opposing short sides, a roof and a floor, the method comprising forming plural rectangular frame members, positioning the frame members vertically in an aligned row with a first predetermined spacing between each adjacent pair of frame members, connecting a plurality of horizontal runners to the frame members with the horizontal runners parallel to each other, extending along the long sides, and with a second predetermined spacing between each adjacent pair of runners to form a lattice framework, securing horizontal angle members to the internal corners of the lattice framework, and securing sheeting to the lattice framework via the runners so as to form an enclosure.
